

YL-OTV Series All-Weather Outdoor Smart TV

全天候户外智能电视 · 55" / 65" · 1000nits & 2500nits · IP65 · 4K UHD · Google TV

YINGLUX all-weather outdoor smart TV, engineered for year-round outdoor entertainment. Featuring a rugged full-metal design with **IP65 waterproof and dust-resistant** rating, this TV thrives in rain, snow, dust, and direct sunlight. Choose between **1000 nits** for partial-shade patios or **2500 nits** for full-sun environments — both delivering stunning **4K Ultra HD** clarity with HDR10+ technology. Powered by **Google TV**, you get access to over 10,000 apps including Netflix, YouTube, Prime Video, Disney+, and more. With built-in Chromecast, Dolby Atmos immersive audio, voice control remote, and a premium wall-mount bracket included, the YL-OTV transforms any patio, deck, garden, or poolside into a cinematic open-air theater.

Product Highlights

Clear in Sunlight

1000 nits of brilliance ensures your favorite movies, sports, and shows shine in vivid detail outdoors. The high-brightness panel cuts through ambient light so you never miss a moment, even on bright sunny days by the pool or patio.

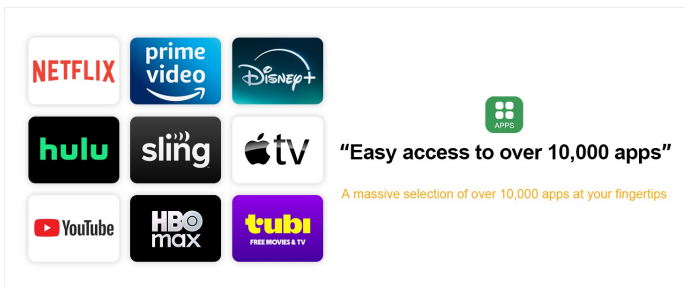

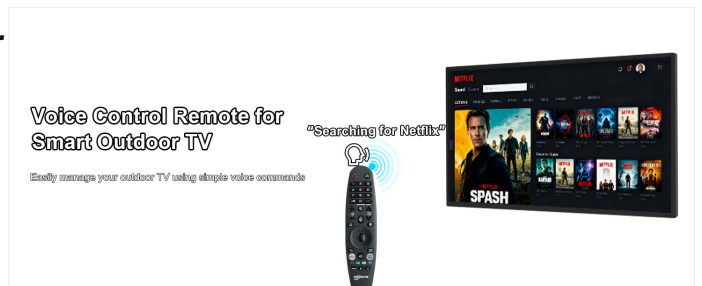

Immersive Dolby Atmos Sound

Enjoy theater-quality audio with Dolby-enhanced clarity. Built-in dual speakers deliver rich, room-filling sound with deep bass and crystal-clear dialogue — no extra soundbar needed. Perfect for sports, movies, music, and outdoor parties.

Voice Control Remote for Smart Outdoor TV

Easily manage your outdoor TV using simple voice commands. "Search for Netflix", "Turn up volume", "Open YouTube" — just speak and Google Assistant responds. The ergonomic remote is weather-resistant and designed for outdoor use.

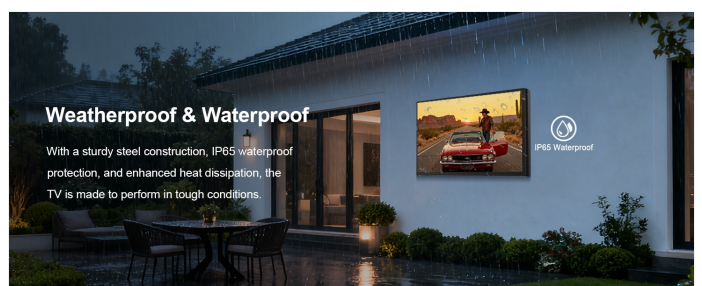

Easy Access to Over 10,000 Apps

A massive selection of over 10,000 apps at your fingertips. Stream from Netflix, Prime Video, Disney+, Apple TV, Hulu, HBO Max, YouTube, Spotify, ESPN, Peacock, and thousands more. Google TV's intelligent recommendation engine learns your preferences for personalized entertainment.

Weatherproof & Waterproof — IP65 Rated

With a sturdy steel construction, IP65 waterproof protection, and enhanced heat dissipation, the TV is made to perform in tough conditions. Built to be weatherproof, dust-resistant, and scratch-resistant — ideal for all kinds of harsh outdoor environments from rainy gardens to dusty patios.

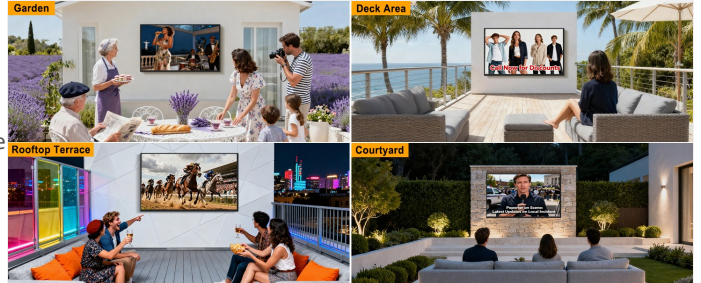

Game Optimizer Mode

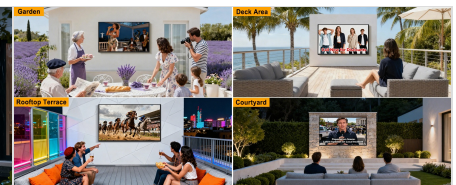

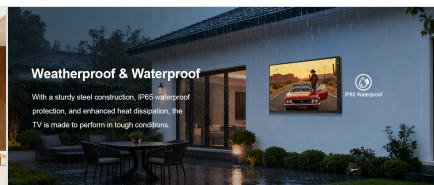

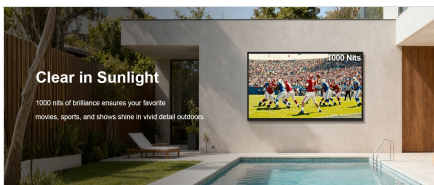

Enjoy smoother visuals, reduced lag, and faster response time — perfect for outdoor gaming. Low latency mode ensures your reflexes translate instantly on screen, whether you're racing, fighting, or exploring open worlds under the open sky.

Smart Outdoor TV for Any Weather

From spring blossoms to summer heat, autumn breezes to winter snow — this outdoor TV handles it all. Operating temperature range of -22°F to 122°F ensures reliable performance year-round. Garden, deck area, rooftop terrace, or courtyard — entertainment has no boundaries.

Application Scenes

APPLICATION

Outdoor residential and commercial environments including backyard patios, poolside decks, rooftop terraces, outdoor restaurants, hotel courtyards, sports bars, garden entertainment areas, and luxury villas. Ideal for any location requiring all-weather, high-brightness outdoor entertainment with smart streaming capabilities.
